Jake Robertson

An impact driven Software Engineer

Contact

Languages

ARM	JavaScript
Bash	jQuery
C	PHP
C#	Python
Java	SQL

Technologies

Business Intelligence
- Power BI, MicroStrategy

Frameworks
- AJAX, Android, Docker, Git, jQuery, Oracle, .Net Core

Libraries
- Flask, nltk, pandas, Plotly, scikit-learn, spaCY, TensorFlow

Services
- IBM Watson, Google Firebase, Microsoft Azure, Standard Library

Testing
- Postman, Swagger, TestMyCode

Courses

- Algorithms, Artificial Intelligence, Calculus, Computer Architecture, Data Structures, Discrete Math, Finnish, German, Linear Algebra, Operating Systems, Predicate Logic, Software Specifications, Statistics, Systems Programming

Interests

- Running, hiking, cycling, yoga, dog walking, Dungeons and Dragons, Suomi (Finland), 3D printing, The Head and the Heart

Citizenship: USA, Canada

Education

Bachelor of Computing, Class of 2021, Queen's University School of Computing, Ontario
- Principal's Scholarship (95%+ entrance average), J.D. Irving Scholarship
- Exchange, University of Helsinki Department of Computer Science, Finland

High School Diploma, Class of 2017, Wellesley High School, Massachusetts
- Men's Varsity Golf Captain, Men's Varsity Tennis Captain

Professional Experience

Intern, BNY Mellon | *Eagle (2019)*
- Identified opportunity to expand intern project scope to explore NLP capabilities on employee feedback conversations. Initiated Agile organization in development of web application that extracts key themes, resulting in comprehensive and unbiased analytics and recognition from senior leadership for ingenuity and breadth of project. **(AJAX, Flask, JavaScript, jQuery, Azure, Plotly, Python, scikit-learn, spaCy)**
- Initiated exploratory research on language integration to extend Eagle's offering to source emerging Business Intelligence technologies. Synthesized findings into prototype that resulted in increased data malleability. **(Power BI, Python, Swagger)**
- Leveraged Asynchronous Programming Interleaving Algorithm to parallelize database extracts, improving system performance. **(C#, SQL, Postman, .Net Core, REST)**
- Supported client issue resolution by analyzing system performance. Diagnosis produced timely resolution and increased client satisfaction.

Camp Counselor, Wayland Junior Golf Program *(2014-2017)*
- Taught campers the mechanical and mental fundamentals of golf, promoted from counselor in training to head counselor for camper satisfaction and accountability.

Coach, Wayland Junior PGA Team *(2017)*
- Selected from camp counselors to expose advanced campers to competitive play, providing on course support and feedback to promote sportsmanship and fair play.

Hackathon Experience

QHacks *(2019)*
- Leveraged Face Recognition in event security mobile app by comparing registration selfie to selfie at check-in. **(Android, Firebase, Java, Python, TensorFlow)**

Hack Western 5 *(2018)*
- Applied IoT and USDA databases in climate change web app by sending notifications as groceries approach expiration **(JavaScript, Scandit, Qualcomm Dragonboard)**

Extracurricular Experience

Chair, Hockey Helps the Homeless, *Queen's University (2019)*
- Promoted from committee member, hired and led team of 15 in sponsorship and execution of ice-hockey tournament, raising ~$30,000 for Kingston Youth Shelter.

Queen's University Men's Hockey Department of Analytics *(2018)*
- Collaborating with a statistician, applied JavaScript in development of web app to record ice-hockey shot coordinates and source statistical analysis. **(JavaScript)**

Coordinator, Pan Mass Challenge (PMC) Kids Ride *(2017)*
- Collaborating with partner, led the logistics, marketing, sponsorship and execution of youth cycling event, fundraising ~$2000 for Dana Farber Cancer Institute.
